Objective

Bachelor of ICT graduate (Cum Laude) with high motivation, solid academics and possesses programming skills in Python, Java, HTML and CSS. I have a strong passion for software development. Collaborate well with others on team projects and always eager to deliver high quality results on time. I am not solely dedicated to my university studies, concurrently, I engage in supplementary learning activities, acquiring certifications. Proficient in multitasking, I excel in handling responsibilities under pressure. Seeking an IT internship to leverage academic knowledge and technical skills with commitment to contributing effectively to a dynamic team and gaining valuable hands-on experience in the field.

Experience

29/01/2024-Present

Durban University of Technology
Contributed to writing user stories, conducting code reviews, and developing APIs using ASP.NET Core Web API. Additionally, I worked as a front-end developer, collaborating with a team to build a web application for faculty use.
